Course Description:

This ILT Series course builds on the fundamentals taught in Acrobat X Pro: Basic. Students will learn how to produce high-quality PDF documents for press. They will learn how to discover geospatial data in a PDF map. They will learn prepress techniques including color management, proofing and converting colors, color separations, managing inks, trapping, and transparency flattening. Students will use the Preflight feature to test and convert a document to comply with print provider requirements or ISO 9000 standards such as PDF/X, PDF/A, or PDF/E. Students will learn to create interactive forms using both the Form Editor as well as LiveCycle Designer ES2. They will learn to distribute PDF documents and forms, and to compile form data returned from users.

Delivery Method:

Instructor led, group-paced, classroom-delivery learning model with structured hands-on activities.
