Course Description:

In CTREC Hilton, Houston's Microsoft Office Excel 2007: Level 1 training course, you created edited, formatted, and printed basic spreadsheets. You now have a need to streamline repetitive tasks and display spreadsheet data in more visually effective ways. In this course, you will use Microsoft Office Excel 2007 to streamline and enhance your spreadsheets with templates, charts, graphics, and formulas.

Course Objective:

You will apply visual elements and advanced formulas to a worksheet to display data in various formats.

Target Student:

The target students for this course are students who desire to gain the skills necessary to create templates, sort and filter data, import and export data, analyze data, and work with Excel on the web. In addition, this course helps prepare students who desire to take the Microsoft Office Specialist exam in Excel and who already have knowledge of the basics of Excel, including how to create, edit, format, and print basic worksheets.

Prerequisites:

Before starting this course, students are recommended to take the following course or possess equivalent knowledge: Microsoft Office Excel 2007: Level 1.

Delivery Method:

Instructor led, group-paced, classroom-delivery learning model with structured hands-on activities.

Certification:

This course is one of a series of Element K courseware titles that addresses Microsoft Certified Application Specialist (MCAS) skill sets. The MCAS program is for individuals who use Microsoft's business desktop software and who seek recognition for their expertise with specific Microsoft products. Certification candidates must pass one or more product proficiency exams in order to earn MCAS certification.
