Course Description:

As a Microsoft Office PowerPoint 2007 user, you are familiar with the basics of creating a presentation and you are able to convey information effectively in a simple way. Static content in presentations; however, will not keep your audience interested. In this course, you will enhance presentations with features that will transform basic presentations into a powerful means of communication.

Course Objective:

You will enhance your presentation with features that will transform it into a powerful means of communication. You will customize the PowerPoint interface to suit your requirements and use the new and enhanced features to create dynamic and visually appealing presentations. You will then finalize a presentation and secure it to authenticate its validity

Target Student:

This course is designed for students who want to gain the skills necessary to work with design templates, various types of diagrams, special effects, custom slide shows, collaboration functionality, and advanced presentation delivery. This course also assisted in the preparation for the Microsoft Office Specialist exam in Microsoft Office PowerPoint 2007. It is for students who already have knowledge of the basics of PowerPoint 2007, including slide formatting and working with tables, charts, images, objects, and presentation preparation.

Prerequisites:

The course requires that you are familiar with using personal computers and have used a mouse and keyboard; basic typing skills are recommended. You should be comfortable in the Windows environment, and be able to use Windows to manage information on your computer. Specifically, you should be able to: launch and close programs; navigate to information stored on the computer; and manage files and folders. It is also recommended the student have taken Microsoft Office PowerPoint 2007: Level 1, or have equivalent knowledge.

Delivery Method:

Instructor led, group-paced, classroom-delivery learning model with structured hands-on activities.
