Course Description:

Photoshop CS4: Basic, ACE Edition, is the first in a series of ILT courses that provide instruction on how to use Photoshop CS3 to create professional-looking images for both print and the Web. In this course, students will identify the components of the Photoshop environment, learn about the differences between raster and vector graphics, and learn how to use Adobe Bridge. Students will explore various methods and will learn how to modify and manipulate ions. In addition, students will learn how to work with text, layers, and layer affects how to adjust, retouch, and resize images and how to prepare images for printing and the Web.

Delivery Method:

Instructor led, group-paced, classroom-delivery learning model with structured hands-on activities.
